Show the work necessary to arrive at your answer. Circle or box your final answer. Put your name on each page. The homework must be neat and follow a logical progression, or the grader may not grade the work. Staple all pages of the homework together.

Due at the beginning of class on Wednesday, November 21, 2007. You may turn this assignment in on Tuesday, November 20 if you wish.

Section 5.1: 6, 10, 16, 20, 24, 34

Section 5.2: 2, 4, 6, 14, 18, 26

Section 5.3: 4, 10, 12

Don’t forget that you should be working through a significant number of other problems. A good strategy is to work through several odd numbered exercises prior to attempting the homework problems.
