

Theatre Project

Due: February 9

The Strand Theatre in Grinnell is a movie threeplex which opened in 2004. The goal of this project is to find the visually best seat in the house. You need to contact the manager (236-7501) to set up a time to view the theatre.

Your final products will involve both an **in-class oral presentation** and a **written report**, both on Feb. 9. The written report should have two-parts: a one-page non-technical summary written for the manager and the body of the report including explanations and mathematical analysis.
